

Data Collection and Preprocessing Phase

Team ID	MCA
Project Title	Smartphone Usage, Digital Addiction & Well-Being Analytics
Maximum Marks	2 Marks

Data Collection Plan & Raw Data Sources Identification Template

Data is the most important component of any data analytics project. Before performing analysis, it is necessary to collect relevant, accurate, and reliable data. **Data collection** is the process of gathering information from different sources according to the objectives of the project.

For the project “**Smartphone Usage, Digital Addiction & Well-Being Analytics,**” data is collected to understand how smartphone usage is related to digital addiction and different aspects of user well-being.

Data Collection Plan Template

Section	Description
Project Overview	The project aims to analyze smartphone usage patterns, digital addiction indicators, lifestyle habits, and well-being factors. The analysis will focus on variables such as screen time, app usage, social media usage, sleep duration, physical activity, stress, productivity, and demographic characteristics.
Data Collection Plan	Relevant data will be collected from publicly available datasets such as Kaggle and other reliable open-data sources. The selected datasets will contain structured information related to smartphone usage, digital addiction, and user well-being.
Raw Data Sources Identified	1. Public smartphone usage dataset – contains information about screen time, application usage, and user behavior. 2. Digital addiction dataset – contains addiction/dependence

	indicators and related usage patterns. 3. Well-being/lifestyle dataset – contains information such as sleep, physical activity, stress, and productivity.

Raw Data Sources Template

Source Name	Description	Location/URL	Format	Size	Access Permissions
Dataset 1	Contains smartphone usage information such as daily screen time, app usage, notifications, and other digital behavior indicators.	Kaggle / Public Dataset Repository	CSV	Dataset dependent	Public

Dataset 2	Contains information related to smartphone dependence or addiction indicators and user usage patterns.	Kaggle / Public Dataset Repository	Excel	Kaggle / Public Dataset Repository	Public
Dataset 3	Contains lifestyle and well-being information such as sleep duration, physical activity, stress, and productivity.	Kaggle / Public Dataset Repository	CSV / Excel	Dataset dependent	Public
